

Miss M. J. Prov. Ed. Education Jan 19

Chautauqua Commences TO-DAY -- Thursday, July 31st.

THE EMPRESS EXPRESS

VOLUME VII, No. 9

EMPRESS, ALTA. THURSDAY, JULY 31st, 1919

Price: \$1.50 Per Year

WAS APPRECIATED

The Cantor six days Chautauqua closed Monday evening and it is evident that the Chautauqua movement is gaining a greater popularity here each year. Last year fifty-four residents of town and district went gratuitously for the success of the Chautauqua, this year eighty-eight signed the contract in order to have it come here next year. Cantor Advance.

Mrs. G. Brillinger, is visiting with her parents, Mr. and Mrs. D. Watt, during Chautauqua.

Get your typewriter ribbons and supplies, and counter check books, at The "Express" office.

LEARN TO SAVE.
Every man, woman and child can save. Every one should save. Every ambitious person does save. The Savings Department of the Standard Bank of Canada affords every facility for aiding you to save.

1475-48 and \$2000 on S-W 1, 27, 28, N-W and 87-88 assessments reduced by \$300 on each quarter and by \$50.00 on fractional area 50 acres.

1757, assessment reduced to \$2400.

181-3, assessment reduced to \$1100.00 on each quarter.

Saturday's Train Wreck Chautauqua

Proving A Success

The evening train from Swift Current to Empress wrecked on Saturday evening, July 26, and Edward Lalonde, who was badly scalded died the same night. The wreck occurred near Batroun, Sask. The engine and the mail and express car and two coaches were overturned bottom side up into the ditch. Two hundred and fifty yards of track, was destroyed, and for about a hundred and seventy five yards the train must have travelled on the sleepers. An engine and three coaches were sent from here to pick up the passengers, and an auxiliary engine was sent from Swift Current. The passengers arrived at 8 a.m. Sunday, and the regular train with the mail arrived at 8 p.m. and started out on time next morning.

Engineer Lalonde, who was scalded to the legs was taken to Cairn. He was administered first aid, by Miss Eva Davis, a returned nurse, who with her sister, was travelling on the train. It is believed Lalonde's lungs must have been scalded, as pneumonia set in, and he died the same evening. The fireman, who sustained a blow on the shoulder, is stated to have been picked up by the Engineer and thrown clear of the wreck. The steam pipes must have burst the next instant and Lalonde, himself, was too late. No one else was hurt.

An examination of the grade where the wreck occurred showed the gravel to be wet and muddy, and it is thought that a spring of water must have opened up below the track. This is surmised to have caused a soft track, which was the cause of the accident.

Edward Lalonde, was a married man and leaves a large family. The body was conveyed on Sunday to Medicine Hat, where the deceased resided with his family. The sad death of Lalonde is much regretted by C.P.R. employees along this line, and a floral wreath, as an expression of their sympathy was sent to his funeral.

1708-9, assessment reduced to \$2400 on each quarter.

The following were ordered raised by the Court:

Section 16, 27, 27 w 3rd, from \$2400 to \$2800 a quarter-section. N-W 16, 26, 29, w 3rd from \$2100 to \$2400.

S-E 16, 26, 29, w 3, from \$2100 to \$2400.

S-W 16, 26, 29, w 3rd, from \$1700 to \$2400.

N-E 1, 27, 28, w 3rd, from \$2400 to \$2800.

Sections 13, 14 and 8 E and W of 12, 24, 29 w 3rd, omitted to be raised 15 p.c. in error be assessed at \$2400 on each quarter, and corrected assessment notices sent.

G. Evans-Sargent, Clerk of the Court of Revision,

United Church

Sunday, July 27.—Sunday School and Adult Bible Class at 11 a.m. Public worship, 7.30 p.m. Strangers welcome.

Everybody welcomed a soaking rain on Wednesday, although it will delay cutting. The rain will be a great help to the late crops and to the summerfallow and help in the feed question.

Tire Troubles

Often seem like luck. A set will stand up for a whole season without attention when the Pates smile and then perhaps the gods frown and you have two blow outs in a forenoon.

Our Vulcanizing
saves the prices of new rubber.

We repair cuts, punctures, worn treads and give you renewed tire service. Try us.

Empress Vulcanizing Works

E. J. BOSWELL

175th Batt. Re-Union

The final arrangements for the re-union of the 175th battalion, which is to be held in Medicine Hat on August 6th and 7th of this year, have been completed and the following programme will be carried into effect:

August 5th; at 7 p.m., a meeting of the 175 Batt. to arrange for the depositing of Colours and other Regimental business in the Curling Rink.

8 p.m. Smoking concert, at which all returned soldiers are cordially invited, and a good time is assured.

August 7th, 10 a.m. Depositing the Colours of the Battalion. 12-20. Civic Luncheon at Curling Rink.

2 p.m. Picnic and Sports, including Baseball game.

Dancing during the evening. All attending are advised that Ribbon Badges will be given out by the Reception committee on arrival of train, or some may be secured at the clubroom of the G.W.V.A. at any time during either of the two days by the arriving by auto or three living heavily. Wearing of Uniform is optional.

It is stated that work on the Leader Big Stick line, will be started about August 2nd.

F. W. Barry, who is still in the local hospital is reported to be progressing favorably. Milton Hicks is also recovering nicely from his burns, and Shear Weir is expected to return to work in the course of a few days.

MAGIC BAKING POWDER
CONTAINS NO ALUM
MADE IN CANADA

MAGIC BAKING POWDER
MADE IN CANADA

Canada's Time Of Testing

Canadians have joyously and enthusiastically celebrated the signing of the Peace Treaty. Canada's unprecedented army of some hundreds of thousands of men is all but completely demobilized, and the war time hardships of the soldiers are again at work in civilian organizations. One by one, all the war time orders-in-council, regulations and prohibitions are passing away, and the Dominion is again rapidly being placed on a peace basis. The astuteness of the Peace Treaty caused by the war is being assuaged by that greatest of all patriots, time, and the feelings of racial bitterness and even hatred which are aroused by war are fading.

The Titanic struggle is already a matter of history, but while memory lasts people will remember the horrors and stress of the past few terrible years, and all future generations will be more or less affected by the experience through which mankind was called upon to live. We are remembering these things, it is well that as a people we should keep even more vividly in our memories the reflection of the heights of loyalty and devotion to country which people attained, the self-sacrifices they so freely and gladly made, all patriots, time and where they so splendidly rendered. During the war the people of Canada rose to undreamed of heights of endurance, and achieved the splendor of which any people might well be proud. In a word, Canada found its soul—something which is more materialistic than this country seemed to lack.

In the past five years Canadians achieved confidence in themselves, they learned to do by doing. They discovered latent native ability and organizing capacity to do big things and do them well. They learned to deal with stress and tumult of war, they learned many lessons, not least of which was the discovery that for well-nigh fifty years the Canadian people had busied themselves, and quarrelled, and divided, over many petty matters and ideas and animosities of a long dead past. Canadians called their Dominion a nation, but it was not, and never could be while its people lacked national vision, a national outlook and truly national aspirations. The country was without a real inspiration. The war has supplied what Canada formerly lacked, and lacking it, was weak and almost impotent in the world.

Are the Canadian people, who proved themselves so big and material in war, going to remain so in peace? Is this Dominion which has risen to a proud place in the world, and the triumph of the common cause instead of pulling against one another. The danger is that in the relaxation from war the people will be content with the easy life of peace, and fall back into old habits. It is too much to hope and expect.

Number Of Strikes Now Decreasing

A marked decline in industrial strife is the feature of the labor situation at present, the number of large strikes under way being few as compared with a few weeks ago. In a number of cases where steps were being taken to make boards of conciliation, there are good prospects of settlements being arrived at by negotiations.

THE CAUSE OF BACKACHE

Only in Rare Cases Does Backache Mean Kidney Trouble

Every muscle in the body tends constantly a supply of rich red blood in proportion to the work it does. The muscles of the back are under a heavy strain and have little rest. When the blood in thin muscles lacks nourishment, and the result is a sensation of pain in those muscles. Some of the backache is due to the kidneys. Organic kidney disease is a progressive disease, and a critical point without developing a pain in the back. This brings the case, past the backache stage, and the sufferer to look to the condition of the kidneys. With very few exceptions the use of Dr. Williams' Pink Pills for the blood to give 50 cents will build up the blood, and in ten minutes that will set your feet at rest, or tell you the worst. But unless we use them as we ought, you must keep the blood in good condition. The kidneys are no other medicine can equal Dr. Williams' Pink Pills.

British Farmers' Gift To France

Have Sent Consignment of Livestock To Pesants

British farmers have just sent through the medium of the agricultural relief committee an important consignment of livestock to peasants returning to their farms in France. The consignment consists of 30 pedigree Shorthorn bulls, 25 heifers and 1,000 head of poultry, which will be distributed in the Somme. Further consignments of cattle are about to be made to France, and later, a consignment of sheep and pigs of suitable English breeds.

China and Modern War Engines

Peking—An expedition for the defence of the northwestern frontiers against German aggression, a long modern military effort. Five thousand troops drawn from contingents of the battle zone, for the national defence army are being dispatched toward Unga. For the first time in Chinese history, automobiles and large numbers are being employed for the transportation of troops. It is expected that airplanes also will be utilized.

BEED TO DEATH

Used to trim a wart with a razor and severed an artery. The only wart cure is "Putnam's," which removes warts, corns, calluses in one day. Insist on getting Putnam's Corn and Wart Extract, it's the best at all dealers.

French Bill Would Help Shopkeeping

Whose Businesses Have Been Destroyed By Reason of War

Paris, France—Mr. Etienne Clement, minister of commerce, has introduced in the Chamber of Deputies a bill which provides for the credit for 100,000 francs in favor of the small shopkeepers, manufacturers and workmen whose businesses have been destroyed or have been placed out of work by reason of war.

Mr. Clement, in introducing the bill, said that artisans and small shopkeepers were in a more difficult position than any other demobilized class. The means of livelihood has disappeared as well as custom. The chamber had already voted 12,000 francs toward a people's bank. A great effort was being made by the chambers of commerce prefects to meet the need of the personnel, and to save people's hands were established and 38 were being organized.

The bill provided that each cover 12 francs if necessary, and amount to 25,000 francs. It was adopted by the chamber.

Australian Premier Is Assaulted

Extraordinary Outbreak Among Returned Soldiers With Grievances

Melbourne—As the outcome of a stormy interview between H. S. W. Lawson, Premier of Victoria, and a deputation of soldiers in the Premier's office, the Premier was struck on the head and cut by an iron bolt thrown by one of the soldiers. The men then proceeded to pick the office furniture into the streets and tore up important official documents. The police dispersed the rioters and arrested five of them. Later a crowd attempted to rush the watch house and stoned the police, but was dispersed with several casualties. The difficulty had its origin when a crowd, including returned soldiers and sailors attacked a military barracks. Shots were fired and several men were killed. There were several arrests made, and soldiers excited meetings of soldiers were held, at which the police met and were denounced.

Representatives of the soldiers went to Premier Lawson's office to demand release of the men arrested. The Premier promised to make an enquiry into the affair, but this did not satisfy the men, and the ink well throwing and other disorders followed.

Worry Is a Homeopathic or Attention-Doing of Fear, and Fear Is a Powerful Depressant of the Circulation and Nervous System.

It is far better to face the anxiety than "chamers" by a snake; it is fear that "strikes at the heart" of a child frightened by some real or fancied apparition or threat, resulting in shock or collapse. It is harmful emotion. There is no doubt that a susceptible individual might be actually "frightened to death."

Official Note Issued

Authorizing Resumption of Commercial Relations Between France and Germany

Paris, France—The French official note authorizing the resumption of commercial relations between France and Germany was issued today, and is effective at once. The note prescribes regulations and provides for the issuing of permits on certain classes of merchandise.

The regulations require that permits be obtained for the exportation to Germany of any merchandise on the prohibited list. No merchandise originating in or coming from Germany may be imported into France without a special permit from the Minister of Finance and the minister of that department of the government particularly interested in the product.

The German delegation at Versailles was informed in a letter from the peace conference that the raising of the treaty by Germany had been accepted and that the raising of the blockade was about to take place. It is believed that the German delegation will discuss the blockade question.

So far as the action of the council concerns France, the measure will be effective only after publication in the Journal Officiel of a decree annulling the preceding decrees regarding the blockade.

Keep The Weeds Down

Constant Attention Is The Only Remedy

Weeds will grow where anything else will grow. If they are not destroyed they will ruin any crop. Survival of the fittest is an inexorable law of nature, and the weed, being propagated by natural methods, has an immense advantage in competition with a cultivated crop.

Constant attention is the only remedy. Once the crop is up, it is already above ground to be distinguishable, cultivation of the soil to kill the weeds should be commenced and should be continued till the crop is high enough to cover the weeds out. This cultivation is also necessary for good growth, as it permits the soil to retain moisture during dry weather and leaves the surface in better condition to absorb rainfall.

Opportunities In The Sheep Business

Western Canada Offers Ideal Conditions for Sheep Raisers

There never was a better chance for the development of the sheep industry than there is in Western Canada today. Mutton and wool are both in great demand and will continue so while the livestock shortage in Europe prevails. This shortage is not likely to be relieved for many years. In the meantime the farmer with a few sheep will be able to make good profits, which, if he is a beginner, will go a long way towards helping him to get firmly established in sheep-raising in many lands before settling in Western Canada claim they know of no country where sheep thrive so well as here.

Do not allow worms to sap the vitality of your children. If not attended to, worms may wreck irreparable damage to the constitution of an infant. The little sufferers cannot voice their ailment, but their mothers are sure to detect them. These worms are dangerous. Mothers are advised that a dose of Miller's Wormer is necessary. These powders act quickly and will expel the worms without any inconvenience to the child.

General Smuts Talks On European Troubles

Strongly Urges Leaving Russia to Settle Her Own Affairs

London—Lieut.-Gen. Smuts, of the Union of South Africa, and member of the British House of Commons, in a farewell message, advocates appeasement and reconciliation with Germany, and encouragement of the "progressive" moderate Republican administration in Germany, which is successfully fighting the European battle against war.

General Smuts strongly urges leaving Russia to settle her own affairs, on the ground that a sobered soviet government may be better than barbarism, to which the present policy seems inevitably to be tending, and declares that British statements should apply the same medicine to Ireland that they applied to Bohemia.

Pigeon Races

Winning through the air at an average speed of nearly 45 miles an hour, sixty racing pigeons flew from Scott, Saskatchewan, to Edmonton, a distance of 285 miles, recently. The race was one of the weekly series set up by members of the Edmonton Pigeon Association. Out of the birds released at Scott at nine in the morning, several had reached Edmonton within a few minutes of each other, about half-past two o'clock in the afternoon. The first pigeon to reach its home loft was one owned by William Ruff.

The ease with which corns and warts can be removed by Holloway's Corn Cure is the strongest recommendation. It seldom fails.

A fervent, but unlettered preacher among the mountain whites of the Carolinas was exhorting his flock to shun idleness and take advantage of the "means of grace." "It air pride," that's keeping you settin' in yore shabby old clothes, 'cause to air proud and get down on your kness, and if they air too stiff with pride, I'll 'em, I'll 'em, as it says in the Scripture, 'with the tie of Patmos'."

Even the man who never fails to keep his appointments is apt to fall down when it comes to answering friendship letters.

A Mild Pill For Delicate Women. The most delicate woman can take a single dose of Farnham's Vegetable Pills without any of unpleasant consequences. Their action, while so thoroughly mild and agreeable. No violent pains or purgings. They cleanse the system and remove all the poisons that thousands of women who have used them can testify. They are, therefore strongly recommended to women who are more prone to disorders of the digestive organs than men.

Aticura
and
ORRIS

British Aeroplanes To Try Pacific Ocean

Will Start as Early as Arrangements Can Be Perfect

San Diego, California—Capt. William Mitchell of Melbourne, Australia, has authorized the statement that several British aeroplanes will start across the Pacific Ocean on August 15, or as early thereafter as arrangements can be perfected. The take-off will be from this city, the destination Australia. The captain, who was in the Canadian air service, will pilot one of the machines. Stops will be made at Honolulu, at a British island near Guam, and at Nagasaki.

Minard's Liniment Cures Distempers.

English Education

The excellence of English education has always been this—what it taught men "how to get on with other men," but not so that they might get a better of other men. It was not because the aim, the secret of getting on, the secret of fellowship, would be lost. The English mind is so far as it has a peculiar excellence—its sense of honor, of loyalty, of essential good manners—is always a morality of fellowship desired for its own sake.

EATS vs. SLATS

The ball game between the
Fats vs. Slats ended in favor
of the Fats by a score of 17 to 7.
The Fats batted at extra in-
nings. Those husky 200-
pounders Scott Brown and
Clark helped along the
Fats score considerably and
Jim Lawcock was no laggard.
Dave Lush, as catcher left
nothing to be desired, at least
John Cusack said he wouldn't
if it had been served. How-
ever, the Slats were advised by
the Doc, not to push their fat
brethren too hard in the mat-
ter of scoring. Extra exertion
might get the fats over-eating,
as some were grass widows,
and they were prone to indig-
estation. A notable absentee
from the Slats, was H. P.
Gregg.

The music of the fourth day
is in the hands of the Canadian
Overseas Orchestra, which was
organized and coached by Lieut.
J. B. Hunter, the noted teacher
and band and orchestra director
of Toronto. It should be
sufficient that Mr. Hunter vouches
for this organization of
soldier musicians to insure both
their ability and popularity.

Every member of the orches-
tra has been overseas, and the
day for their appearance on the
Chautauqua should be a red-
letter one. Give these boys the
reception they so richly deserve,
make them know our hearts go
out to them for the service they
have rendered to our country.

This is not the only reason they
should receive a royal welcome,
however, every man is a trained
experienced instrumentalist.
The director, Mr. Henry So-
hier, is a man of mature mus-
ical experience, both as an in-
strumentalist and director, and
the program as arranged will
please musicians and music-
lovers alike. Ranging from old
and modern classics to the more
popular folk songs and patriotic
airs of both olden and present
days, everyone is assured of a
musical treat by this splendid
organization of Canadian mu-
sicians. An added feature to
the Canadian Overseas Orches-
tra is Miss Ruth Leone Thomp-
son, contralto, who is a singer
of rare ability. She will be the
soloist with the evening pro-
gram.

There is no better Midway ex-
tent than the Johnnie Jones
Shows that are coming to the
Swift Current Fair, August 5, 6
and 7, after completing a tour
of the Western States and some
of the larger Canadian cities of
the west. A visit to this mam-
moth midway will reveal the
wonders and sensations of the
world.

There is an exceptionally
classy horse racing card of cir-
cuit events for the Swift Cur-
rent fair, August 5, 6 and 7. An
added event will be a relay race
for non-professionals. This will
be for a mile and a half distance,
with two changes of mount be-
fore grand stand. Special auto-
mobile races will also be held
for non-professionals—one race
with Ford cars and one a free-
for-all. This event on second
and third days.

Mr. and Mrs. R. E. Gray and
family returned the first of the
week, from Saskatoon, where
they had been taking in the
fair. They made the trip by
auto and experienced some of
the troubles which are apt to
befall unfortunate autoists.

J. M. Waggett, of Jenner,
arrived in town Wednesday,
and is renewing acquaintanceship
with old friends.

Reservations are now being
made at the headquarters of
the forthcoming Alberta Indus-
trial Congress for the special
train, which is to leave McMede-
Hat on the evening of August

11, for the Grand Theatre, Cal-
gary, where congress sessions
take place, and for hotel accom-
modation at Medicine Hat, Cal-
gary, and Edmonton. There is
no cost attached to the atten-
dance at congress sessions in
Calgary and reservations are
made for all who apply by letter
or wire.

The congress sessions will
take place at Calgary in morn-
ing and afternoon of both Wed-
nesday and Thursday of the
week of August 11-16. The
Edmonton session of the con-
gress promises to be an inter-
esting feature and at the capital
city the premier and govern-
ment members will give a
reception. The congress will
conclude with a trip into the
Rockies at the end of the week.
Several hundred reservations
have already been made for the
theatre sessions at a slightly
lesser number for the special
trains. Several parties of Amer-
ican industrial leaders will
accompany special train in a
private car.

Re-organise Gun Club

A re-organization meeting of the Empress Gun Club took place in the Council Chambers, Monday, July 21. It is the intention of the Club to hold weekly shoots on the grounds near the tennis courts. Some good shots are developing among the Club members. The meeting elected the following officers:

B. L. Kenny, Hon. Pres.
G. M. Johnston, Pres.
R. M. Henderson, Vice-Pres.
M. A. Blodgett, Secretary.
W. C. Boyd, Mgr.
H. P. Gregg, Field Captain.

Supt. Cameron, of the C.P.R. was an Empress visitor on Monday evening. He made an inspection through the N.E. district, making the trip with G. M. Johnston, in the latter's car.

Bindloss Celebration

A large number of our townspeople journeyed to Bindloss, on Friday last, and took in the Celebration. They had a good time. The sports provided were of the best. The cowboy sports being particularly good—and undoubtedly thanks are due to our genial friend Eugene Fitzger. The committee worked

hard to please their guests. The enthusiasm of the rooters during the baseball match between Empress junior team and Vandyne, kept the excitement alive until lack of daylight forced a closure, with Vandyne the winning team. A good dance was a fitting finish to an enjoyable celebration.

Miss Opal Boyd, returned on Wednesday, from a visit with friends at Cavendish.

U. Mackay, is visiting with friends in this district. He saw overseas service and held a sergeantcy in the Sportsmen's Battalion, returning to Canada about two months ago. He is negotiating for a piece of land posed of his farming interests in the irrigation district.

British Settlers To Flock To Canada

Winnipeg.—Details of a scheme of far-reaching effect which the British government is ready to put into operation for settling British subjects in Canada, were given in an interview by Lieut.-Col. Obed Smith, commissioner of immigration for Canada in London. Col. Smith, who will be in the city several days before going west, also made the interesting statement that the immigration laws had been restricted by Canada none too soon, as, since the war ended, he had received unmistakable evidence of a contemplated rush to this country of aliens from not only Germany and Austria, but Turkey.

"The soldier settlement department of Canada," said Col. Smith, "has branches in all the world's great empires, and, as our department in the British Isles will, in future more closely co-ordinate with the details of this work, it is the intention to study at first hand the duties and the operation of the local settlement boards, and if time permits, to look into the development work which will be being done in the Peace river district.

"In this connection the imperial government has financed and has ready to put into immediate operation as soon as Canada is ready to co-operate, a scheme for granting free transportation to some extent of landing in the Dominion to the following four classes of people:

1. Imperial ex-soldiers and ex-sailors and their families.
2. Widows and families of imperial soldiers and sailors killed in the war.
3. Women war workers, such as those in the land army, the women's legion, etc.
4. Orphan children of ex-servicemen.

"The British government has provided that no people shall benefit under their dependents if the first satisfied the local British authorities of their standing, and in all cases a condition precedent to the scheme going into effect will be the consent in writing of the Canadian department that such intending emigrants will be received into Canada and provided with employment.

"Transport difficulties, plus the necessity for returning Canadian immigrants to their dependents is the only reason why the scheme is not in operation today. As a matter of fact, I have already given consent in four of five cases to try out the machinery. These, however, were not all in which people of the farming class were going to join relations or friends who were on the land here. There will be no limit to the movement of British people under this scheme except the desire and capacity of Canada to absorb them."

Great Britain Faces Big Labor Issue

London.—The labor expert of the London Times has summarized the present labor situation in Britain as follows:

"The labor issues maturing in the next few weeks are bigger than any Great Britain has yet had to face. The labor organizations are bigger than they were before the war. Labor ideas are bigger. On the one hand we have organized workers like a strong man with determination. On the other hand the employers' organizations were never better consolidated. Left to themselves, a terrific conflict would be inevitable, and would be fought as a war of extermination by each side.

It probably would end in the exhaustion of both sides, and the third party vitally interested in keeping peace, namely, the general public, whose trustees are the government. The question of destructive industrial war or peaceful industrial reconstruction will be determined by the action of the government.

The present cabinet has not shown anything like a broad, sympathetic, progressive policy towards labor and independent workers' wishes. Labor, therefore, if it chooses, can control the existing constitutional machine. This is the surest safeguard against a violent revolutionary outbreak by any large body of British workers.

Only when balked by the cabinet and flouted by parliament will the workers attempt drastic action. Meanwhile, the public must expect progressive and somewhat extreme strikes. They are the growing pains of the labor movement.

Eleven Boys Drowned At One Time

Canoes Were Tipped Over By High Waves

Springfield, Mass.—Eleven members of the Springfield boys' club were drowned in Big Pond, East Otis, when a flatboat and several canoes in which they were being towed, were tipped over by high waves. The boys missing are: Fred Miller, Edward Brocher, Amos Newell, Fred Stevens, Francis Morarty, Harry Nash, Donald Dilizia, Mitchell Levin, Leonard Stinson, Assistant Canyon Leader, Walter Sears, and Earl Robertson.

The boys, who were in an island with 42 other boys on a camp, had been on the mainland for athletic sports and were being taken back for dinner. After being towed across, a high wind came up, causing the waves to partly fill the flatboat with water. When the launch towing them turned to go back to the mainland, flatboats quickly filled the boat and it soon sank.

Some of the boys held on to the boat, but when one of the youngsters saw the peril of the others on that side of the boat started to rescue him. This caused the boat to turn over and all but their heads were above water. The boys who were following in canoes paddled to the struggling mass of humanity, and some of this was captured, also, accounting for other drownings.

Satanstoe, who was one of four directors in the launch, when he saw the panic among the boys, jumped into the water in an effort to rescue. He was soon pulled down by the struggling boys and drowned with the others. The only boy recovered up to six o'clock was Walter Sears.

Germany Would Be Friends With Neighbors

Advances Along Path in Expectation of Revision of Peace Treaty

Wiesbaden, Germany, June 12.—Dr. Hermann Mueller, minister of foreign affairs, speaking before the national assembly, urged the peace among the boys, jumped into the water in an effort to rescue. He was soon pulled down by the struggling boys and drowned with the others. The only boy recovered up to six o'clock was Walter Sears.

Dr. Mueller favored non-interference in Russia and in an effort to promote friendly relations with Poland and Czechoslovakia, while not repudiating Germany's former allies, Bulgaria and Turkey.

Great Britain Faces Big Labor Issue

London.—The labor expert of the London Times has summarized the present labor situation in Britain as follows:

"The labor issues maturing in the next few weeks are bigger than any Great Britain has yet had to face. The labor organizations are bigger than they were before the war. Labor ideas are bigger. On the one hand we have organized workers like a strong man with determination. On the other hand the employers' organizations were never better consolidated. Left to themselves, a terrific conflict would be inevitable, and would be fought as a war of extermination by each side.

It probably would end in the exhaustion of both sides, and the third party vitally interested in keeping peace, namely, the general public, whose trustees are the government. The question of destructive industrial war or peaceful industrial reconstruction will be determined by the action of the government.

The present cabinet has not shown anything like a broad, sympathetic, progressive policy towards labor and independent workers' wishes. Labor, therefore, if it chooses, can control the existing constitutional machine. This is the surest safeguard against a violent revolutionary outbreak by any large body of British workers.

Only when balked by the cabinet and flouted by parliament will the workers attempt drastic action. Meanwhile, the public must expect progressive and somewhat extreme strikes. They are the growing pains of the labor movement.

Awaiting Proclamation Of Peace At Ottawa

Ottawa in Throes of Doubt as to When War Measures Act Expires

Ottawa.—Parliament will be in session again before the War Measures Act expires, with the race track betting, prohibition and other wartime provisions-in-council passed under its provisions. This is the understanding here, and was the understanding when parliament prorogued a fortnight ago. At that time the final complete text of the peace treaty with Germany had not been received in Ottawa, and therefore could not be submitted to parliament for ratification. Drafts as prepared had been received and changes made are awaited from Paris. It was not till the arrival in Ottawa of Hon. C. J. Dobson, who with Hon. A. L. Sifton signed the treaty for Canada, that the act as signed at Versailles was available for consideration by the British government when Sir Robert Borden left London was that there would be no proclamation of peace by Britain for some time, but that the rate not till the Canadian parliament had full opportunity to rally.

Since then, however, greater necessity has apparently arisen for Great Britain for an early proclamation that a state of war no longer exists. It is understood that the government here is in communication with the imperial authorities on the subject and that stress is being laid on the necessity of a proclamation of peace given to the Dominion parliament for discussion of the treaty's terms before the king's proclamation of peace is given to the king. Notice has already been given of a special session in the fall for ratification.

While the question has not been discussed in cabinet as yet, it is probable that the date of opening will be advanced a week or two to avoid any unnecessary delay. The treaty will be officially proclaimed before the Dominion parliament can be summoned is regarded here as extremely unlikely.

The point raised by Sir A. B. Aylesworth that the war time order-in-council, notwithstanding its own provisions, will not be operative after expiry of the War Measures Act is generally conceded. A similar opinion was given by the minister of legal affairs in Great Britain with regard to Orders-in-Council passed under the Defence of the Realm Act.

It is pointed out that under the treaty with Germany peace cannot be proclaimed until after ratification by Germany and by three of the principal allied and associated powers. The principal allied and associated powers are defined in the treaty as U.S., British Empire, France, Italy and Japan. Ratification of the treaty by Germany, France, Italy and Japan, therefore, is not regarded as being sufficient to end the war and the War Measures Act. The peace also need not be ratification of peace with Austria, which with Germany would be merely a partial peace. But whether ratification of the peace with Bulgaria and Turkey first would be necessary in or as the termination of the War Measures Act is concerned is regarded as an almost lost-doubt. This is little likelihood, in actual practice, of much difference in time between the proclamation of peace by Great Britain and its proclamation in Canada by the government-general.

Canadians Sentenced In England

End of Trial of Seven in Connection With Death of Espion

London.—At the Surrey assizes, Bagley Robert Todd and Private E. A. McCallan, of the Canadian Forestry Corps, were found guilty of manslaughter in connection with the death of Police Sergeant Green at Epsom and discharged. Privates F. H. Wilkie and Canadian Briton J. Connors, 113th Canadian Highlanders; and A. McMaster, 3rd Canadian Reserve, and D. Yoxon and A. Massie, of the Canadian Forestry Corps, were found guilty and sentenced to twelve months' imprisonment with hard labor.

No Trace of Nipigon Man

Port William, Ont.—Another day's search for the missing man, who was implicated in the murder of Constable Armstrong at Nipigon is at large. Apparently there has been no sign of him although a search of Inspector Symons, Sergeant Burleigh and members of the local police forces, including the Nipigon, Port William and railway police, has been ceaseless in the vigilance for him and are still scouring the woods between Port Arthur and Wild Geese Point.

Strikers On Trial At Winnipeg

Winnipeg Strike Leaders Laugh at Evidence Tended on Conspiracy

Winnipeg.—A secret service whose ramifications extended over the carefully guarded precincts of the labor temple was named as the source of the evidence of an actual revolution by Sergeant A. E. Reames, chief of the Manitoba Royal Northwest Mounted Police secret service, at the preliminary trial of eight labor leaders charged with seditious conspiracy. The accused, R. B. Russell, W. M. Jones, W. A. Fritchard, R. J. Johnson, Alderman A. A. Heaps and John George, George Armstrong and R. E. Bray, maintained the attitude they adopted at the first sessions, they laughed outright at some of the evidence and continually passed laughing whippers.

"Report I had from reliable agents was to the effect that there was a revolution in the making," Sergeant Reames declared, "and I was re-emphasized by E. J. Murray. He omitted quotations from speeches by Wm. Ivens and Geo. Armstrong which were controlled revolution. He believed the speeches were contributory causes to the general strike. "I was not surprised that the strike was peaceful at first," he said, "if I would have remained so if the strike committee could have retained control of the city under the labor temple permit system. They wanted peace for a purpose."

Evidence of an independent witness, Joseph T. Hill, who was present at a meeting of the day before the first riot, brought out the fact that Wm. Ivens had told a large gathering of ignorant foreigners that their homes were in danger of violation by the special police. Mr. Ivens told a story of a special police raid on the city from a strike's view and children under threat of his baton. When the next day the witness had thought it his duty to report Ivens' speech to the police. He said he believed it was contradictory to the riotous and "seditious and that its effect at that time would be particularly bad. He said he had been 'shocked' and 'horrified' by the thought of Ivens having so little sense that he would make such an inflammatory address to such an audience.

Political Landslide In Prince Edward Island

Charlottetown, P.E.I.—Liberal swept the province in the general elections, capturing 26 seats out of 30.

The only Conservative survivors of the debacle were Hon. Arsenault, premier; Hon. James A. McNell, minister of public works; and H. F. Murdoch Kennedy, without portfolio, and J. D. Stewart McKinnon, administrator of agriculture, was defeated.

This was the most one-sided election since Confederation, with the Liberals winning 26 seats and the Conservatives only two seats. When the house dissolved, the parties stood: Conservatives, 18; Liberals, 11; and one seat vacant.

The Liberals elected are: Ben Leal, Gallant, McEldar, Sanders, Dennis, and Arthur, and the Conservatives are: LePage, Brodie, D. MacDonald, Nash, Irving, Higgin, Duffy, D. J. MacDonnell, Acorn, Co. McIntyre, Johnston, Dwyer, Sutherland, Butler and Hearn.

Such a sweeping victory was unexpected by both sides, although the result of the federal elections, where four Liberals got a majority of home votes, afterwards charged by the soldiers' votes, foreshadowed a Conservative defeat. The returned soldiers did not take an active part in the contest, but it is evident that a majority voted Liberal. Fine weather brought out a large vote. There was a big turnover in Charlottetown, the Liberals capturing both seats held by large majorities, labor going with the opposition.

Disatisfaction with the administration of the public works department, especially the neglect of roads, with the administration of the agriculture department, and with the proposal of the government to levy additional taxation told against the Conservatives. People also looked with disfavor upon the highway bill, fearing that payment of the federal cent. asked for by the sixty per cent. would be too heavy a burden.

How Military Class Misled The Germans

Lenine Wants Peace With Russia

Makes Concessions for Armistice, But Ties Serious String to Proposals

London.—A Bolshevik delegation has arrived at Kishinev with an offer of peace to the commander of the Rumanian troops on behalf of Nikola Lenine, the Bolshevik premier, according to a Berlin government wireless dispatch.

Lenine offers to cede Bessarabia to Rumania on condition that Rumania shall prohibit Ukrainian citizens and bands of Admiral Kolchak, head of the anti-Russian government at Omsk, from crossing the Rumanian frontier.

An armistice to last eight days has been concluded on the Bessarabian front, and the delegation has gone to Rumanian headquarters.

Would Exclude Canadian Cattle

Fears Expressed in England That Animals Are Exposed to Diseases

London.—Farmers of England are opposing the efforts being made to remove the long-standing prohibition on the importation of Canadian store cattle. The council of the chamber of agriculture has adopted a report urging that there be no relaxation in restrictions, not because of disease which is admitted to be non-existent in Canada, but because Canada's extended frontier extends to constant danger from the U.S. where animal diseases are always present.

Resume Trade With Germany

Traders of World Rush in With First Raising of the Allied Blockade

Berlin.—The first results of the raising of the blockade, says the Deutsche Allgemeine Zeitung, is the flooding of Cologne with foreign goods.

"French firms," the newspaper adds, "are offering hundreds of thousands of kilograms of cocoa, powder, chocolate, coffee, oil, fat, pork, macaroni and toilet soaps. German imports companies have been offered large quantities of corn starch and cocoa, hundreds of carloads of white beans and Chinese yellow peas, and macaroni and chocolate in huge quantities."

"The American offers include: balm, olive oil, rubber coats, steam turbines, automobile machinery, various oils and varnishes. "An Anglo-Japanese firm offers the direct importation of borax, paraffin, castor, kerosene, shellac and soap."

Primates Must Pay King.—Dr. Judge Layell has issued an attaching order to twelve Roman Catholic clergymen in the Kingston archdiocese for the "Catharism," the ten per cent. of the revenue of a parish priest which is payable to Archbishop Spratt from the respective parishes of these men. This step is being taken to realize under the judgment obtained by Sister Mary Basil against Archbishop Spratt and Sister Margaret, of the House of Providence, for the sum of \$20,000.

U. S. Will Repeat The Reciprocity Act

Prince To Visit White House

British-Apparent Invited to Be Guest of United States Government

London.—The Prince of Wales will reach the U.S. next month as the guest of the U.S. government. King George, on behalf of the Prince, has accepted an invitation sent the Prince by President Wilson, to visit the President in Washington.

After his visit to Canada, the Prince will go to Washington for a few days as a guest of the United States government and later will make a brief visit to New York, where he will live on board the British liner, which is en route to New York, although still a guest of the government.

Peace overtures to Germany by Great Britain and France were made through the Vatican in August, 1917, according to the declaration of Matthias Erberger, vicar-general and minister of finances in the German national assembly on Friday. These overtures, he added, were rejected by Germany.

Signor Pacelli, Papal Nuncio to Munich, on August 13, 1917, addressed a note to Imperial Chancellor Lenine, the Bolshevik premier, according to a Berlin government wireless dispatch.

Erberger explained, asked for a German declaration for Belgium independence and compensation, and enquired as to what guarantees Germany would need for herself.

Chancellor Michaelis did not answer but had asked permission to publish the contents of the British despatch, but that such permission has not been received.

The reading of the note caused a great sensation in the assembly. In commenting, Herr Erberger said:

"In 1916, President Wilson used every effort to bring about a peace, but Mr. Wilson's peace was not adopted by the production of unrestricted submarine warfare and at least twice an honorable peace could have been brought about, but it was rejected by the military party both times.

At the end of September I was in Berlin and saw a pamphlet made to me and with tears in his eyes said: 'Now everything is lost, and for your poor fatherland, too.'

"The policy of Germany," continued Herr Erberger, "was not brought about by revolution, but by madness of the country's political and military authorities and lack of political insight on the part of the conservatives and the supreme army command. They intimidated and terrorized the German people, and are still pursuing these aims. We had to accept a peace of violence because that was the only way out."

"We have undertaken the responsibility for their misdeeds; if they wash their hands in innocence a hundred times will not help them. They will not free themselves of their guilt, either before us, before history or their own consciences."

Herr Erberger concluded by pointing out the danger of revolution menacing the whole of Europe. Five million men will be disbanded in this war with the greatest ease, and there was every likelihood of this example becoming contagious. Statesmen who were not blind nor dumb, must perceive the dark despair of the people, must hear the angry rumble from the masses and must take this factor into account."

Our State-Owned Ships

Ottawa.—By the end of this year the government will have twenty ships with a total tonnage of 110,000 tons operating in the North Atlantic and West Indian trade. The voyages made by the seven steamers already in commission have been very profitable.

U. S. Will Repeat The Reciprocity Act

New York.—A Washington dispatch to the New York World says: "Influence of the new American Reciprocity Act, as approved by President Taft on July 6, 1917, was decided by the U.S. Senate and means a revision definitely agreed to by the Republicans since regaining control of Congress. It is a measure toward the throwing of a high protective wall around American products."

A report was offered to be made to the United States if it is possible to repeat measure will be rushed through before the summer recess, which leaders are endeavoring to secure, beginning early in August. "It may have to be delayed, as there is strong sentiment among Republicans to delay it until after the certain sections that the reciprocity have been influenced."

Every week day, except Sundays

Chautauqua commences this afternoon.

The big tent was erected Wednesday.

Mr. and Mrs. Wm. Cozart and family of Flaxcombe are visiting Mr. and Mrs. W. C. Boyd during the Chautauqua.

Miss Mary E. Wallace advance agent for the Chautauqua arrived here Friday last.

The C.P.R. survey gang moved their camp the first of the week from west of town to Rosedale—Mail, Drumheller.

D. Maxwell, left Thursday, for Smithers, B.C., where he has farming interests. He expects to return here in the course of two months.

A. E. Galloway, reports that he had a narrow strip of oats destroyed by hail, last week. He states that the hail stones piled up against his barn door to a depth of five inches.

Alfred Cross, of Social Plains, is entertaining his nephews who have lately returned to this country after a long absence overseas.

Corp. J. Hughes, who enlisted in the 82nd Batt., returned on Friday last, after long service overseas. Jimmy saw service in some of the major actions. He received a bad leg wound, and for thirty-six hours laid out on the field before being rescued and brought in for medical attention. Gangrene had set in and it was feared his leg would have to be amputated. It was only after a third operation the leg was saved. Since 1917 he has been working for the military authorities at Epsom, Eng. at his trade, as a shoemaker. Townspeople and friends are pleased to welcome him back.

CASE

KEROSENE TRACTORS
SAVE YOUR HORSES

WALKING over plowed ground all day tires your team as well as the driver. How about pulling a load besides? In these days of scarcity of horse and man power the heavy farm work such as discing can be done most speedily and economically with a Case Kerosene Tractor. The 10-18 or smallest Case Tractor can pull an 8 ft. double row disc harrow set to full depth. Busy farmers can work the "team horse" day and night if necessary. Don't forget that Case tractors operate over dusty fields without dust entering cylinders. The Air washer fully protects the Motor. The all-steel gear gears are fully enclosed and run in oil. The weight of the Case 10-18 is only about 3,400 lbs. this, with the liberal sized tires prevents soil packing. Other important features explained in full descriptive literature sent out for the asking. Let us tell you more about the 10-18 or larger Case Tractors.
